

# THE CHILDREN OF GOD IN FACE OF THE ENEMY'S TRAPS

*In the world that we are living in, so many people do not have God; so many people have pushed God out of their everyday lives. Many of us have many, many questions, many deep questions that it confuses us... Who am I? What am I doing here? What does God want for me? What is the Will of God for my life?*

*I feel that I have something to accomplish but I do not what it is. All of these questions, very deep profound questions, very real questions... but where is the answer? Why does God allow suffering? Why does God allow war? Why? Why? Why? And these are types of questions that unless we have a relationship with God, it is almost impossible to answer them; answer them to our satisfaction that we have understood.*

*And I would like to share with you this night what I believe is the solution to all of the problems in this world.*

*Each of us is a child of God; nothing more, nothing less... when the enemy of God came to learn of the plan of God for Mankind; he was shocked, he was amazed... How could God do such a thing? as he understood this word Mankind... they were fractured, they were weak compared to the angelic choirs; they were without power like the Angels, and yet God saw fit to have as His children, actual children these insignificant beings and at that very moment, when he could not understand which led to him not accepting, he rebelled against God, saying: 'No, I will not be part of this... I refuse this plan' and of course, he and one third of those in the heavens were thrown down to Earth where the story begins of Mankind and good against evil. Satan hates Mankind. His one pursuit is to destroy it by deceiving it in very subtle ways and the more subtle the way is especially in these times; the more traps are set for the children of God.*

*A child of God is special, no two are alike. Every single one is blessed... every single one, with the Finger of God have been written in their hearts the Ten*

*Commandments... in every child of God... and yet in these times, there are so many around the world that refuse this designation. They do not want to be known as children of God because somehow over the last two decades, perhaps three, we have fallen into a trap that it is hard to recover from and as a result we are losing our common sense.*

*When you think that you are here without the Hand of God being involved in you being here, you are losing your common sense. When you believe that everything in the world operates on its own; we are losing our common sense. And when you lose you common sense you lose your identity, you become so confused that you no longer understand who you are and with many of us it results in serving two masters, being neither black nor white, always being in the middle.*

*Even though Our Lord has told us in the Gospels: 'Children, be careful, you cannot have a life in the middle; if you do, I am going to call you lukewarm and at the end of time, I am sorry but I am going to spit you from My mouth'; and even though many of us know this, even though many of us each day reject the inspirations that are coming to us, we still follow the way of the world in these times.*

*But we all know the way in which the world is going in these times, and most of it is not of God.*

*So, what do I do? How can I make a difference? How can I change? How can I understand who I am?*

*And believe it or not, the answer is incredibly simple, you have to stop for just a moment and ponder about your life as a gift, not a biological accident, but as a gift. You are alive, today as a gift from whom? From God, the Creator of all things, your Father and it is your life that you are responsible before God to understand; it is your duty, your obligation, your responsibility to take the time to understand this gift, this miracle that is you.*
