

The responsibility of the children of God with their family and society

Why are we allowing confusion to pull us away from what we know in our soul is right because of the few in the world who have been so deceived, who have so influenced our legislation, that because of your silence and my silence, our apathy and complacency, the few are now making the rules for the many who are silent... can you imagine? The children of God have been silenced and we are becoming afraid to stand up and say no!

Somehow the world today has turned what historically has been wrong, into telling us that is right. It is right because so many people are doing it... but be careful! complacency and apathy allow us to be sucked in, no matter who we are, little by little, day by day, until we are silent and we allow in our communities what we know in our soul is wrong, we allow it to become right.

The problem is... our souls, the Finger of God, The Commandments of God in our soul, as His child, we know it is wrong and there is the disease, the corruption. And who is at fault? Me... not them... I am allowing it, I am allowing myself to be drawn from being the son of God, the daughter of God in my daily life... and before my children who are the future of this world... they are seeing my apathy my complacency and what are they doing? They are not only imitating it, but they are advancing it without even understanding it. And who will be called to task? Me... you...

So, what is the answer? Because there is an answer ... Like in all things of God, the answer is very simple... we are the ones who complicate it. It was always right before your very eyes, but the world has blocked it from your vision. The answer to all of these problems is you... no one else. Don't look to your left, don't look to your right... the answer is you.

Personal change... don't look any further for any deeper answers. You know it is wrong... no one has to stand up and tell you. It simply comes down to your stopping for a moment and calling out to God asking Him to help you to change... to become that son or daughter of God every day for the rest of your life... little by little, every day doing your best to change and no longer being afraid, because fear does not apply to a child of God. There is no such word...

Who is greater than God? What is greater than God? So why must you fear if you walk with God?
